(МГУ имени М.В. Ломоносова)
по теме диссертации в рецензируемых научных изданиях за 2019–2023 гг.

1. Temereva E.N. Development and structure of the nervous system in phoronids: evolutionary significance // Neuroscience and Behavioral Physiology. 2022. V. 52, № 1. P. 77–85.

2. Temereva E., Isaeva M., Kosevich I. Unusual lophophore innervation in ctenostome *Flustrellidra hispida* (Bryozoa) // Journal of Experimental Zoology Part B: Molecular and Developmental Evolution. 2023. V. 340, № 3. P. 245–258.

3. Kuznetsov P., Temereva E. Ultrastructure of proboscis blood vessels in females of *Bonellia viridis* (Annelida: Bonellinae): new reconstructions // Journal of Morphology. 2022. V. 283, № 6. P. 771–782.

4. Temereva E.N. First modern data on the lophophore nervous system in adult *Novocrania anomala* and a current assessment of brachiopod phylogeny // Biology. 2022. V. 11, № 3. Article No. 406. doi: 10.3390/biology11030406.

5. Rimskaya-Korsakova N.N., Temereva E.N., Malakhov V.V. Apoptotic processes precede infection with symbionts in a pogonophoran lavrae (Siboglinidae, Annelida) // Doklady Biological Sciences. 2022. V. 506, № 1. P. 128–131.

6. Kuznetsov P., Temereva E., Ereskovsky A. New data on the ultrastructure of the proboscis in females of *Bonellia viridis* (Annelida: Bonellinae) // Zoomorphology. 2021. V. 140. P. 453–468.

7. Kuzmina T., Temereva E. Ultrastructure of ganglia in the brachiopod *Coptothyris grayi* and its phylogenetic significance // Journal of Zoological Systematics and Evolutionary Research. 2021. V. 59, № 2. P. 376–386.

8. Kuznetsov P., Temereva E., Maiorova A. New data on echiuran anatomy and histology: the case of *Lissomyema mellita* (Annelida: Thalassematidae) // Zoology. 2021. V. 144. Article No. 125865. doi: 10.1016/j.zool.2020.

9. Plandin F.A., Temereva E.N. Anatomy of the coelomic system in Novocrania anomala (Brachiopoda, Craniiformea) and relationships within brachiopods // Zoology. 2021. V. 144. Article No. 125884. doi: 10.1016/j.zool.2020.

10. Rimskaya-Korsakova N., Karaseva N., Pimenov T., Temereva E., Rapp H.T., Southward E., Worsaae K. Myogenesis of *Siboglinum fiordicum* sheds light on body regionalisation in beard worms (Siboglinidae, Annelida) // Frontiers in Zoology. 2021. T. 18, № 1. Article No. 44. https://doi.org/10.1186/s12983-021-00426-9.

11. Kuzmina T., Temereva E. Tentacle muscles in brachiopods: Ultrastructure and relation to peculiarities of life style // Journal of Experimental Zoology Part B: Molecular and Developmental Evolution. 2021. V. 338, № 3. P. 192–208. https://doi.org/10.1002/jez.b.23110.

12. Temereva E.N., Kuzmina T.V. The nervous system of the most complex lophophore provides new insights into the evolution of Brachiopoda // Scientific Reports. 2021. V. 11, № 1. Article No. 16192. https://doi.org/10.1038/s41598-021-95584-5.

13. Temereva E., Rimskaya-Korsakova N., Dyachuk V. Detailed morphology of tentacular apparatus and central nervous system in *Owenia borealis* (Annelida, Oweniidae) // Zoological Letters. 2021. V. 7, № 1. Article No. 15. https://doi.org/10.1186/s40851-021-00182-y.

14. Temereva E.N. First data on the organization of the nervous system in juveniles of *Novocrania anomala* (Brachiopoda, Craniiformea) // Scientific Reports. 2020. V. 10. № 1. Article No. 9295. https://doi.org/10.1038/s41598-020-66014-9
