

Список публикаций к.б.н. Татоновой Юлии Викторовны,
старшего научного сотрудника лаборатории паразитологии
ФГБУН «Федеральный научный центр биоразнообразия наземной биоты Восточной Азии»
Дальневосточного отделения Российской академии наук
по теме диссертации в рецензируемых научных изданиях за 2015–2019 гг.

1. **Tatonova Y.V.**, Besprozvannykh V.V., Katugina L.O., Solodovnik D.A., Nguyen H.M. Morphological and molecular data for highly pathogenic avian parasite *Erschoviorchisanuiensis* sp. n. and phylogenetic relationships within the Opisthorchiidae (Trematoda) // *Parasitology International*. 2020. V. 75, Article No. 102055. DOI 10.1016/j.parint.2020.102055
2. Izrail'skaia A.V., Besprozvannykh V.V., **Tatonova Y.V.**, Nguyen H.M., Ngo H.D. Developmental stages of *Notocotylus magniovatus* Yamaguti, 1934, *Catatropis vietnamensis* n. sp., *Pseudocatropis dvoryadkini* n. sp., and phylogenetic relationships of Notocotylidae Lühe, 1909 // *Parasitology Research*. 2019. V. 118, № 2. P. 469–481.
3. **Tatonova Y.V.**, Besprozvannykh V.V., Shumenko P.G., Nguyen H.M., Solodovnik D.A. First description of genetic diversity for the genus *Metagonimus* using the complete *cox1* gene sequence // *International Journal for Parasitology*. 2019. V. 49, № 12. P. 985–992.
4. Besprozvannykh V.V., **Tatonova Y.V.**, Shumenko P.G. Life cycle, morphology of developmental stages of *Metorchisus suriensis* sp. nov. (Trematoda: Opisthorchiidae) and phylogenetic relationships with other opisthorchiids // *Journal of Zoological Systematics and Evolutionary Research*. 2019. V. 57, № 1. P. 24–40.
5. **Tatonova Y.V.**, Besprozvannykh V.V. Description of a new species, *Cryptocotylelata* sp. nov., and discussion of the phylogenetic relationships in Opisthorchioidea // *Parasitology international*. 2019. V. 72, Article No. 101939. DOI 10.1016/j.parint.2019.101939.
6. Solodovnik D.A., **Tatonova Y.V.**, Burkovskaya P.V. The geographical vector in distribution of genetic diversity for *Clonorchis sinensis* // *Parasitology Research*. 2018. V. 117, № 1. P. 335–338.
7. Shumenko P.G., **Tatonova Y.V.**, Besprozvannykh V.V. *Metagonimus suifunensis* sp. n. (Trematoda: Heterophyidae) from the Russian Southern Far East: morphology, life cycle, and molecular data // *Parasitology International*. 2017. V. 66, № 1. P. 982–991.
8. **Tatonova Y.V.**, Chelomina G.N., Nguyen H.M. Inter-individual and intragenomic variations in the ITS region of *Clonorchis sinensis* (Trematoda: Opisthorchiidae) from Russia and Vietnam // *Infection, Genetics and Evolution*. 2017. V. 55, P. 350–357.
