

Список публикаций д.б.н. Левицкого Дмитрия Ивановича,
заведующего лабораторией структурной биохимии белка
Федерального исследовательского центра «Фундаментальные основы биотехнологии»
Российской академии наук, Институт биохимии им. А.Н. Баха, по теме диссертации в
рецензируемых научных изданиях за 2015–2019 гг.

1. Nefedova V.V., Marchenko M.A., Kleymenov S.Y., Datskevich P.N., **Levitsky D.I.**, Matyushenko A.M. Thermal unfolding of various human non-muscle isoforms of tropomyosin // Biochemical and Biophysical Research Communications. 2019. Vol. 514, № 3. P. 613–617.
2. Matyushenko A.M., Shchepkin D.V., Susorov D.S., Nefedova V.V., Kopylova G.V., Berg V.Y., Kleymenov S.Y., **Levitsky D.I.** Structural and functional properties of $\alpha\beta$ -heterodimers of tropomyosin with myopathic mutations Q147P and K49del in the β -chain // Biochemical and Biophysical Research Communications. 2019. Vol. 508, № 3. P. 934–939.
3. Matyushenko A.M., Kleymenov S.Y., Susorov D.S., **Levitsky D.I.** Thermal unfolding of homodimers and heterodimers of different skeletal-muscle isoforms of tropomyosin // Biophysical Chemistry. 2018. Vol. 243. P. 1–7.
4. Logvinova D.S., **Levitsky D.I.** Essential light chains of myosin and their role in functioning of the myosin motor // Biochemistry (Moscow). 2018. Vol. 83. P. 944–960.
5. Logvinova D.S., Matyushenko A.M., Nikolaeva O.P., **Levitsky D.I.** Transient interaction between the N-terminal extension of the essential light chain-1 and motor domain of the myosin head during the ATPase cycle // Biochemical and Biophysical Research Communications. 2018. Vol. 495, № 1. P. 163–167.
6. Logvinova D.S., Nikolaeva O.P., **Levitsky D.I.** Intermolecular interactions of myosin subfragment 1 induced by the N-terminal extension of essential light chain 1 // Biochemistry (Moscow). 2017. Vol. 82. P. 213–223.
7. Scellini B., Piroddi N., Matyushenko A.M., **Levitsky D.I.**, Poggesi C., Lehrer S.S., Tesi C. The relaxation properties of myofibrils are compromised by amino acids that stabilize α -tropomyosin // Biophysical Journal. 2017. Vol. 112, № 2. P. 376–387.
8. Matyushenko A.M., Artemova N.V., Shchepkin D.V., Kopylova G.V., **Levitsky D.I.** The effects of stabilizing mutations in the central part of the α -chain of tropomyosin on the structural and functional properties of $\alpha\beta$ -tropomyosin heterodimers // Biophysics. 2016. Vol. 61. P. 711–716.
9. Logvinova D.S., Markov D.I., Nikolaeva O.P., Sluchanko N.N., Ushakov D.S., **Levitsky D.I.** Does interaction between the motor and regulatory domains of the myosin head occur during ATPase cycle? Evidence from thermal unfolding studies on myosin subfragment 1 // PLOS ONE. 2015. Vol. 10, № 9. Article No. e0137517. DOI:10.1371/journal.pone.0137517.
10. Matyushenko A.M., Artemova N.V., Sluchanko N.N., **Levitsky D.I.** Effects of two stabilizing substitutions, D137L and G126R, in the middle part of α -tropomyosin on the domain structure of its molecule // Biophysical Chemistry. 2015. Vol. 196. P. 77–85.
